OBJECTIVE

MERN stack developer skilled in building scalable, user-focused applications. Seeking an internship/full-time opportunity to apply modern web technologies in real-world solutions.

EDUCATION

B.Tech in Computer Science and Engineering, Uttaranchal University 2023 – 2027 (Expected)
CGPA: 8.5

SKILLS

Languages	JavaScript, Java
Frontend	HTML5, CSS3, React.js, Bootstrap, Material UI
Backend	Node.js, Express.js
Databases	MongoDB, SQL
Developer Tools	Git, GitHub, Postman, Passport.js, Render, Netlify, VS Code
Other	Data Structures and Algorithms, MVC Architecture

EXPERIENCE

Full Stack Developer Intern Arc Creative Media May 2026 – Present *Stipend: 8,000 per month*

- Engineered and deployed scalable full-stack web applications using React.js, Node.js, Express.js, MongoDB, and JavaScript, delivering responsive, high-performance solutions across multiple business use cases.
- Improved website performance, user experience, and search engine rankings, contributing to a 60% increase in web development project acquisition.
- Designed, developed, and integrated RESTful APIs, authentication systems, database architectures, and administrative dashboards for multiple client projects.
- Participated in the full Software Development Life Cycle (SDLC), including requirements analysis, development, testing, deployment, and ongoing maintenance.

PROJECTS

GLP Pharma — Full-Stack E-commerce Website & CRM (Project Link) 2026

- Developed a responsive pharmaceutical e-commerce website using React.js, implementing product discovery, product comparison, shopping cart, wishlist, and user-friendly purchasing workflows.
- Built a centralized CRM system to manage customers, products, orders, inquiries, and business operations, improving data organization and operational visibility.
- Implemented reusable React components and Context API-based state management for cart, wishlist, comparison, and other application-wide functionalities, ensuring scalable and maintainable code.
- Integrated frontend and backend services to enable dynamic product and customer data management, streamlined order workflows, and seamless communication between the website and CRM.

Critigen Pharma Website Development (Project Link) 2026

- Designed, developed, and deployed a production-ready pharmaceutical company website with responsive UI, SEO optimization, and scalable architecture.
- Collaborated with stakeholders to translate business requirements into a high-performance web solution, improving brand presence and digital customer acquisition.
